Fiscal Year 2018 CACFP Area Eligibility Data
At the start of every fiscal year, FNS releases a special tabulation of data provided by the Census Bureau for CACFP (Child and Adult Care Food Program) that establishes area eligibility in the CACFP. This data is effective as of Oct. 1, 2017. The FNS mapping tools have also been updated to reflect the new data. More information can be found at https://www.fns.usda.gov/areaeligibility.

To learn more about using census data for establishing area eligibility for CACFP Area Eligibility using Census Data, please see the policy memorandum at https://www.fns.usda.gov/area-eligibility-child-nutrition-programs.

Qualification for At-Risk Afterschool Meals programs must be determined by school data rather than Area Eligibility Census Data.
