Center Sponsor Budget

All CACFP reimbursement must be expended on allowable CACFP costs. All sponsors must maintain a non-profit food service fund therefore all reimbursement must be expended.

1. Anticipated Reimbursement

Determine total reimbursement earned during the last 12 months from monthly claim reports. For participation of less than 12 months, determine an average monthly amount from the reimbursement received and multiply by 12. Budget value may not exceed 5% of total reimbursement in previous program year without justification.

2-23: Anticipated Expenditures

List an amount in the appropriate line item(s) to project expenditures for the CACFP. Complete all expense lines that pertain to the CACFP, even if these expenses are not paid with CACFP funds. Budget expenditures are not required on all line items.

Food for CACFP (2) – Determine or estimate the average monthly cost of food (do not include cost for meals purchased from a vendor, see line 3), and multiply by 12 months. Include food expenditures for all sites.

Vended Meals for CACFP (3) – If prepared meals are purchased from a vendor, determine the estimated total for your contract period.

Non-Food for CACFP (4) – Non-food includes napkins, dishwashing detergent, disposable plates, cups, or utensils, etc., used for food service. Estimate cost for the budget period as above.

Salaries (5-9) – Include salaries for individuals completing CACFP tasks, such as food service personnel and administrators. Fringe benefits indicate employer's matching portion of FICA, unemployment, worker's compensation, insurance, etc. If salaries are charged to CACFP, a CACFP Time and Task Form must be on file at center.

Mileage (10) – If it is the policy of the center to pay mileage for grocery shopping or to pick-up prepared meals from the supply source, multiply mileage by the sponsor's current mileage rate (not to exceed IRS business mileage rate). Mileage must be documented and kept on file.

Equipment for Food Service (11-12) – List expenditures for repairs to existing food service equipment, equipment replacement, or addition of equipment.

Contractual Service (13-15) – Prorate to determine the portion of the contractual service costs applicable to the food program. Document method of proration for all applicable costs included in the budget.

Office Costs (16-19) – Prorate the portion of the office costs applicable to the CACFP. Document method for prorating all applicable office costs included in the budget.

In-service Training (20-21) – In-service training includes expenses incurred (1) for attending an in-state workshop pertaining to the food service program, and/or (2) for training sessions on CACFP-related topics (food service, nutrition education, etc.) for center staff. This can include room rental, rental of A-V equipment, and/or printing of materials.

Other (22) – Specify any other costs **directly attributable** to the food service program.

Total Anticipated Expenditures from CACFP Reimbursement (23) – Total of lines 2-22.

24. Other Income

Indicate the sources of non-CACFP funds that could be used to pay for unfunded program costs, over-claims, and unallowable costs. Sponsors must have additional funds to cover costs that the CACFP reimbursement does not cover. This includes over-claims (excess reimbursement from what has been properly earned) and unallowable program costs.

25. Budget Method

Indicate the accounting method used by the sponsor to measure financial status. Cash basis accounting matches cash collected with cash disbursed during an accounting period. This method equates revenues with cash collected and expenses with cash paid out.
