P0189 Quality Care Services

P0189, Quality Care Services, a home sponsoring organization in Kansas uses a portion of their Administrative Funds to purchase provider resources to distribute to their providers during home visits. One provider received the children's book, *Peanut Butter and Cupcake* with a nutrition education lesson plan during their latest home visit. The provider later shared with the home sponsor the following, "I have a family who I provide care for that has an 8-year-old nephew struggling to find a purpose to live. The mom of the daycare child had stated that she wanted a fun day for the nephew and her daughter and they were going "Berry Picking". I immediately thought of the book *Peanut Butter and Cupcake* and shared the book, and two chef hats (also resources from Quality Care) with this mom. The mom came back and shared that the 8-year-old thoroughly enjoyed berry picking and reading the book to the younger cousin while wearing the chef hat! The mom expressed that the boy finally smiled that day for the first time in a very long time! She was so thankful that the provider took the time to reach out and share these resources with her. The mom really felt this was a meaningful and positive experience needed for this child."
