- Use of Smart Phones.
- Members like the development of F/R priced meal application for NSLP. Child Care sponsors would like to move toward the electronic Income form as well.

**Training & Technical Assistance Update** – Cindy Johnson gave an update on current online and virtual trainings available.
- Continue with Town Hall at 2 on Tuesdays; consider asking directors if they would like the Town Hall mini session materials expanded to make a one-hour virtual session for staff. For example, develop one-hour virtual sessions on stress management, responsive not defensive, increasing participation, etc. for staff.
- Request for culinary quick train videos with chef led info on preparing cultural meals and general food prep.

**Vision for 2021: Training & Technical Assistance** – Member comments included:
- Online training is the way to go. Staffing is such a big issue – going to a training in-person is next to impossible.
- Guidance and training on financial reports would be helpful after development is complete.
- Professional Development Log.
Kansas leads the world in the success of each student.

- Talking Points.
- Administrative Updates – one live training, then make recorded version available
- As long as there is a way to email questions for clarification, watching a video is perfectly fine.
