

# SUNFLOWER SPOTLIGHT

## USD 321 Kaw Valley

Nate Wood, USD 321 Food Service Director, began making plans in February to incorporate local produce into school and Summer Food Service Program menus. Children attending summer meal service sites in Delia, Emmett, St. Marys and Rossville have enjoyed delicious and fresh local produce such as broccoli, snow peas, tomatoes, cucumbers and zucchini this summer. Plans are also underway to offer local watermelon and cantaloupe to students in the Kaw Valley district at the start of school this August.
