

# SUNFLOWER SPOTLIGHT

## USD 308 Hutchinson

Jennifer Tatro, Food Service Director at USD 308 Hutchinson uses innovation and creativity throughout the school year and summer. Jennifer supports the community by incorporating local foods in the Summer Food Service Program and School Nutrition Programs. Summer menus feature locally grown watermelon from Smith's Market, fresh ground beef from Jackson's Meat, and milk from a local dairy (processed by Hiland). During the school year, Hutchinson schools use a 60/40 white wheat flour blend from Hudson Cream Flour to make rolls, buns and cinnamon rolls. The use of local products has made a significant increase in student acceptability.
