The distribution process for our newest publication, Child Care Recipes: Food for Health and Fun, for the CACFP is almost complete. You may already have received your copies or had copies distributed to your child care centers by the printer.

Just as the publication was coming off the press, it was discovered that, unfortunately, there was an error in "Information Card 1", pages three through six (two printed pages). This card describes the Child Care Meal Patterns. Problems included amounts listed for meat/meat alternates for the snack and the amount of fruit/vegetables required for 6-12 year olds in the lunch/supper section. Corrected pages were immediately printed and placed in individual envelopes with instructions to replace the pages in the Child Care Recipe binder.

A package will be coming to you with a bulk shipment of envelopes with corrected pages. Please distribute these envelopes to your child care centers. We are sorry for any inconvenience this causes, but we want your publication to be correct.
