This memorandum follows-up the e-mail sent by Mary Nielsen on February 24, 2003, transmitting the letter signed by Stanley Garnett. It provides information that the Fiscal Year 2003 USDA appropriations bill has been signed, and authorizes a continuation of participation in the CACFP by for-profit centers under the free/reduce price provision.

The bill extends reimbursement through September 30, 2003. If a center has the appropriate records to document compliance with CACFP requirements, reimbursement can be paid retroactively to October 1, 2002.

This appropriations bill does not remove, or in any way affect the eligibility status of for-profit organizations that participate in the CACFP under the Title XX provision.
