Subject: Summer Food Service Program (SFSP) Questions and Answers

To: STATE AGENCY DIRECTORS (Child Nutrition Program) - Colorado ED, Iowa, Kansas, Missouri DH, Montana OPI, Nebraska ED, North Dakota, South Dakota, Utah and Wyoming DHSS

Attached are questions and answers that have been received from State Agencies and Field Offices since our memorandum, SFSP-268, dated May 16, 1995. Please contact my staff at (303) 844-0359 if you need further clarification.

Ann C. Degroat
ANN C. DEGROAT
Regional Director
Child Nutrition Programs

Attachment
1. Q. An SFSP site wants to operate only 1 week; is there a minimum number of days a site must be in operation?
   A. No.

2. Q. In determining the number of sites to be reviewed in accordance with Part 225.7(d)(2), does one round up or down in computing the number?
   A. Use normal rules of rounding; if less than .5, round down (for example; 16 X .15 = 2.4 = 2); if more than .5, round up (for example; 17 X .15 = 2.55 = 3).

3. Q. Are adult volunteers who assist with food service considered Program adults?
   A. Yes. Reference CACFP-239 #10.

4. Q. Can teachers buy a meal, or are they considered Program adults?
   A. They are not considered Program adults unless they have duties related to food service; therefore, they must pay for their meals.

5. Q. A private nonprofit organization is sponsoring an enrolled site at a Boys and Girls Club. In order to participate at that site, the participants must be enrolled in the Boys and Girls Club. Should this be stated in the public release?
   A. Yes. The public release should advise of any enrollment requirements. However, it would be advisable to include that the Boys and Girls Club does not discriminate in its enrollment procedures.

6. Q. A site received a health inspection in March prior to applying for the SFSP. Does the site have to have another one for the SFSP?
   A. Part 225.26(a) only requires the sponsor to notify the appropriate health department of its participation in the Program. It is up to the health authorities to decide if another inspection is needed.
7. Q. Are specific types of milk required in the SFSP as in the National School Lunch Program?

A. No. As long as it meets the definition in Section 225.2, it may be served. Also Instruction 783-7 gives additional guidance on milk.
