MEMO CODE: SFSP 03-2012

SUBJECT: Additional State Requirements in the Summer Food Service Program

TO: Regional Directors
    Special Nutrition Programs
    All Regions

    State Directors
    Child Nutrition Programs
    All States

The purpose of this memorandum is to introduce a standard process to be used by State agencies when requesting approval to implement additional program requirements for the Summer Food Service Program (SFSP).

Previously, there was no standard process in place for State agencies to submit requests to implement additional requirements. States are permitted to implement additional program requirements that are not inconsistent with the Federal requirements, do not deny access to the program to eligible children, and have been reviewed and approved by the applicable Food and Nutrition Service (FNS) Regional Office (7 CFR §225.18(f)).

Before implementing additional program requirements, State agencies are required to submit a formal request to the FNS Special Nutrition Programs Regional Director in their region. The request must be submitted at least 30 days before implementation of the additional requirement, and the State agency must receive approval from the FNS Regional Office before implementing. A prototype State agency request form is attached. State agencies are not required to use the attached form. However, State agencies must include the following information when submitting a request to the FNS Regional Office:

- a description of the additional program requirement, including the affected Program participants;
- a justification as to why the additional program requirement is necessary; and
- an assurance that the additional program requirement will not create barriers to participation or deny access to eligible children.

FNS Regional Offices will review requests from States within their region and determine whether the additional requirement meets the regulatory requirements as discussed above. State agencies that have already implemented additional State requirements that have not been reviewed and approved by the Regional Office should submit a request for review.
and approval. Beginning in fiscal year 2013, SFSP management evaluations will include a review of additional State requirements. If a State agency has implemented additional requirements that were not approved by the Regional Office, it will be considered a finding.

State agencies should direct any questions concerning this guidance to the appropriate FNS Regional Office. Regional Offices with questions should contact the Child Nutrition Division.

Cynthia Long
Director
Child Nutrition Division

Enclosure
State agencies administering the Summer Food Service Program (SFSP) are authorized to implement additional Program requirements that are not inconsistent with the Federal requirements, do not deny access to the Program to eligible children, and have been reviewed and approved by the applicable FNS Regional Office (RO) (7 CFR §225.18(f)). **At least 30 days before implementing additional Program requirements, please submit the information requested below to the Food and Nutrition Service Special Nutrition Programs Regional Director in your region.**
